**The worlds governments and organizations trust  
Artesion.**

U.S. Department of Defense

## Artesion is a leader in Platform Resilient Systems.

Artesion's mission is to become the leader in resilient platform systems and infrastructure. We seek to empower our customers with long-term security of supply of resource solutions.

### Resource Security Platform

Artesion, Inc is a Technology & Service Company that has a Fit-for-Purpose Resource Security and Resilient Platform that integrates breakthrough technologies to meet government, commercial industrial, and municipal customer's power, water, data.

## Risk Analysis Solution

Artesions platform integrates hardware and software capabilities for security of supply of resources and on-demand availability and quality of valuable resources; such as water, power, and data. Our solutions consider a risk analysis integrated approach that thinks through internal and external threat scenarios, coupling the probability of events and cascading failures with the capital and recurring recovery cost; we then provide a solution for mitigation.
