# European Defense Tech Hackathon – Lviv · Luma

~3 Minuten

---

## Time to Accelerate European Defense Innovation

Join us and 100+ hackers from all across Europe and beyond for the **European Defense Tech Hackathon on May 22-25, 2025, in Lviv, Ukraine.**

### Goal

We want to bridge the gaps between technologists, the public sector, investors, and operators in dual-use and defense technology. This hackathon will demonstrate the talent and drive of the European ecosystem.

Get inspired by the challenges we have prepared, or feel free to bring your own project. You'll get feedback from folks who have been on the frontline to ensure you're solving real problems.

Our goal with the hackathon is to put you in a position to continue towards deployment.

### Visitors

To give the participants time and space to focus on their projects during

the hackathon, we'll have no visitors during the hackathon. If you're curious about the outcomes and what the teams have built, please sign up as a visitor for our demo day on Sunday.

## Agenda

### Thursday, May 22 — Kick-off + Workshops

**11:30–12:30** — Doors Open / Registration

**12:30–12:45** — Kick-off Speech by 3rd Assault Brigade, EDTH, Women in Defense Tech

**12:45–13:15** — Keynote by Quantum Systems

**13:15–13:30** — Hackathon Overview

**13:30–14:15** — Lunch (Catering outside near the entrance)

**14:15–15:00** — IRON: How to Build in Defense

*Main Stage*

*Topic: Entering and scaling in Ukraine's defense tech market*

**14:15–16:00** — Airsoft with the 3rd Assault Brigade

*CQB Shop*

**14:15–16:00** — FPV Killhouse Workshop #1 (3AB)

*FPV Killhouse School*

**14:15–16:00** — Tactical Medicine Training

*Lounge Zone*

**15:00–16:00** — OKO Thermal Camera Workshop

*Main Hacking Zone*

*Topic: How effective thermal imaging for drones is made: anatomy & integration*

**15:00–18:00** — Drone Building Workshop by DroneAid Collective

*Main Hacking Zone*

**16:00–18:00** — FPV Killhouse Workshop #2 (3AB)
