Resources](#)[Reports](#)[Articles](#)[Articles](#)[Books & Ebooks](#)[Reports](#)

NATO will adopt its new Strategic Concept at the 2022 Madrid Summit. It will define the security challenges facing the Alliance and outline the political and military tasks that NATO will carry out to address them. The last such Concept was agreed back in 2010 when the world was a different place. You can access the official website of the strategic concept [here](https://www.nato.int/strategic-concept/).
