

# “Ukraine Air Rescue” JUL 2023

# Ukraine Air Rescue

**Ukraine Air Rescue** is a non-governmental organization (NGO) founded in March 2022 after the Russian invasion of Ukraine. The goal of this NGO is to fly **urgently needed medical supplies and personnel** into Ukraine quickly, unbureaucratically, and without red tape.

UAR use private airplanes to transport these items directly from their source countries to the Ukrainian border where NGOs or volunteers take them on for delivery wherever they are needed—whether it be hospitals, other NGOs or medical units.

The return flights from Ukraine bring people in need back to safe countries with help from civil and humanitarian organizations working together with Ukraine Air Rescue. This helps ensure that those who have been displaced by war can find safety elsewhere while still having access to vital resources such as healthcare equipment and personnel if necessary during transit times.

**Ukraine Air Rescue** has become an invaluable resource for those affected by conflict in Europe's eastern region due its commitment towards providing **fast aid whenever** possible regardless of bureaucratic hurdles that may come up along the way .

It serves as an important reminder about how much can be accomplished when individuals work together towards a common cause despite difficult circumstances.

**SAFER Ukraine**

Supporting Action For Emergency Responses in Ukraine

„....you guys do a great job not only from the side of evacuation but from giving these kids a unique experience. from our social part of the project, we know how excited these kids are after the flight, and for sure, they remember this trip for a long time.

Gandalf coming with the eagles and Deus Ex Machina saving the hero in distress appear to be not just a thing from the book or theatre play but from life itself.

Thank you!”

- Dmitry
