Marcel Schorr

Head of Department @ Center Digitalization of German Armed Forces | Co-Founder @DRIVE Ventures | Co-Founder @ARX Deutschland

Berufserfahrung

Bundeswehr Wir. Dienen. Deutschland.

11 Jahre

Head of Department @ Center Digitalization of German Armed Forces
August 2023 - Present (2 Jahre 5 Monate)

Dresden, Sachsen, Deutschland

As the youngest Head of Department in the Cyber and Information Domain (CIR) of the Bundeswehr, I lead and am responsible for a team of over 20 highly specialized software experts.

The core tasks of the department include analyzing, testing, packaging, and integrating specialized software for more than 110.000 clients, as well as apps for mobile devices.

Information Technology Officer

Januar 2015 - Present (11 Jahre)

Sapper Intelligence

Advisory Board Member

Oktober 2025 - Present (3 Monate)

DRIVE Ventures GmbH

Co-Founder & CEO

September 2024 - Present (1 Jahr 4 Monate)

At DRIVE Ventures, I lead our mission to empower and invest in the next wave of defence tech pioneers. As a non-traditional investment community founded by military professionals, we stand out through our resilience, adaptability, and a forward-thinking approach that defies convention. We actively seek out founders with a unique vision and the drive to challenge norms, supporting them as they break new ground.

Our core focus is on pre-seed investments within the digital technology sector, where we leverage our deep expertise and extensive network to help startups accelerate their growth and target development goals with precision. Together,

we address the intricate challenges of today's digital landscape, equipping our portfolio companies to succeed in an ever-evolving tech-driven world.

NATO

Senior Advisor - NATO Mission Iraq

Februar 2025 - August 2025 (7 Monate)

Gouvernement Bagdad, Irak

Senior Advisor to the Iraqi Ministry of Defense within the NATO Mission Iraq (NMI). Providing strategic-level advice on IT-enabled defense processes and digital transformation projects. Supporting the modernization of IT infrastructures and the implementation of international standards for military information systems. Close collaboration with senior decision-makers to enhance digital resilience and technological innovation across various institutions of the Iraqi government.

ARX Robotics

Co-Founder & Former Managing Director

März 2021 - Januar 2024 (2 Jahre 11 Monate)

Metropolregion München

As a co-founder of ARX, I played a key role in transforming a research project into a startup. As Managing Director, I took part in multiple financing rounds (convertible loans, angel investment, pre-seed), built and scaled the IT infrastructure, and managed interdisciplinary teams of soldiers, students, scientists, and engineers. My focus was on business development, strategic growth, and driving innovation.

I served as Managing Director until I shifted my full focus back to my role within the German Military in the Center for Digitalization.
