Since 2016, UAnimals has been promoting the humane treatment of animals, their protection from exploitation and abuse. We have managed to ban circuses with animals in two dozen cities, agree to abandon natural fur by several dozen designers, as well as achieve the adoption of several important animal rights laws over recent years.

However, on February 24, 2022, Russia attacked Ukraine and now the main efforts of UAnimals are focused on rescuing animals in this situation. We help shelters financially, we provide them with food and try to evacuate animals to other countries.
